

Pedestrian Salt Spreader (PPS Series)

The pedestrian push along salt spreader is ideal for ensuring pathways, walkways and access ways are gritted for ice. With large pneumatic tyres for easy movement, and a 50kg capacity non corrosive hopper, our pedestrian salt spreader will help ensure your operations keep moving during the winter months

Model Ref	Capacity (kg)	Weight (kg)
PPS 50L	50	18

- ✓ Large non corrosive 50kg hopper
- ✓ Large flow regulator for easy operation
- ✓ Substantial 330mm diameter tyres for easy movement
- ✓ Solid control linkage to eliminate sticking and stretched cables
- ✓ Deflector plates for spread pattern control
- ✓ One piece fully welded steel frame with ergonomic handle
- ✓ Durable plastic rain cover

Suitable for use with dry white rock salt only
