

# HAND PALLET TRUCK

WITH **3000KG CAPACITY**

model

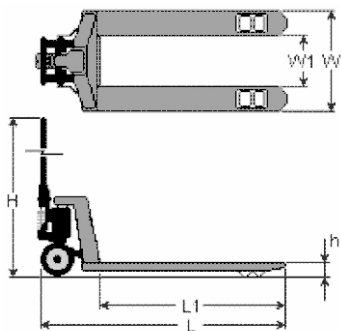

## BF30

3000

Model BF30 , Capacity 3000kg

- Available in widths 540 & 685 mm.
- The extremely reliable pump unit is fitted with a pressure relief valve to prevent overloading.
- Very strong robust chassis.
- Comfortable rubber gripped handle.
- 3-Position trigger; Lift, Lower + Neutral.
- The robust chassis is reinforced at the 'A' frame and the legs are strengthened along their length. To reduce maintenance needs, all pivot points are bushed with grease points.
- This model can be fitted with a foot operated parking brake + other brakes.
- Trucks carry CE mark and comply with all current safety legislation.
- The one piece pump design sealed integrated simplifies repairs, assuring reliable services and long life.
